under 10kg	100													
11~100kg	110													
101~300kg	180													
301~1,000kg	300													
<p>When the consignment is over 1,000kg, the charge on the right should be added to every additional 1,000kg or the odd weight.</p>	50													
<p>② Unitized shipments LD3 per day</p>	3,500													
<p>③ Power supply for e1/e2 type container ULD per day</p>	1,500													
<p>*This special storage facility charge is applied the day of arrival.</p>														
<p>(Applicable regulation)</p>														
<p>1. Calculation of the storage days of "the broken bulk consolidated shipment" is calculated tracing back to the day of arrival.</p>														
<p>2. In case the cargo is broken bulk, each broken bulk cargo is dealt with as one shipment.</p>														
<p>3. The cargo pieces after ULD break down is taken as loose number of pieces.</p>														
<p>4. The fraction is omitted and calculated when the weight of one piece has "a fraction below 1 kg." and The weight of one piece calculates the cargo which is less than 1 kg as 1 kg per piece.</p>														
<p>5. "Valuable shipment" and "Dangerous goods" are classified by the IATA regulation, or the shipment designated by Customs or the airline.</p>														
<p>6. "Keep cool, frozen or warm shipments" need to be ordered by the airline or consignee to store them in the sufficient temperature controlled facilities. However, in case storage capacity is shorted due to high demand and if special measurement is requested by the airline or consignee, it will be applied additional charges.</p>														
<p>7. For re-stored or temporarily stored cargo, free storage term is not applied. The general storage charge will be applied from first day of carrying in.</p>														
<p>(Effective date)</p>														
<p>This charge table is effective from 06 May, 2011.</p>
