Dear Valued Customer

Re: Import Service Charges

All shipments requiring a release from U.S. Customs will be subject to Import Service Charges (ISC).

Storage charges will be assessed for any shipment not removed from our premises within two calendar days after 8:00 AM of the day of arrival.

These charges will be basically calculated at \$(as shown) per 45kg (rounding up to the nearest 45kg increment) per day.

Minimum charge per station can be found below:

**TSC**
