

Dear Valued Customers,

Acceptance of solid shipment packed in single metal-made packagings

Thank you for your understanding and cooperation for flight safety.

Nippon Cargo Airlines did not restrict acceptance of solid shipment packed in metal-made packagings. However, in order to prevent leakage incident related to metal-made packagings, regardless solid or liquid, we will require overpack for metal-made **single** packagings. Applicable metal-made single packagings is Steel Drum, Aluminum Drum, Steel Jerrican, or other metal-made durm/jerrican.

For details, please refer our website(<http://www.nca.aero/e/index.html>), IATA Dangerous Goods Regulations 54th edition(DGR) and DGR/Addendum III.

If you have any question, please contact our sales or reservation staff.

1. Effective date:

June 4, 2013
